ProCare[®] Services

Our ProActive approach

With ProCare Services, we offer you operational and financial peace of mind through three comprehensive offerings: **ProCare Preventive Maintenance, ProCare Protect and ProCare Prevent**. You will have confidence in your device's state of readiness along with these additional benefits of your service plan.

Your service details are:

Parts, labor and travel (PLT)

Our most inclusive service offering. All parts, labor and travel associated for repairs of contracted products are included in the cost of the service agreement. This does not include replacement of soft goods or accessories (i.e. mattresses, restraints, removable parts) and is not available for AEDs.

Preventive Maintenance (PM)

Contracted products receive an annual PM for the length of the service agreement. PM-only agreements do not cover any necessary repairs identified through the PM process. For details on preventive maintenance, refer to applicable product sheet. Preventive maintenance can also be done as individual billable work.

• Additional Preventive Maintenance:

Contracted products on a PM-only contract can receive an additional PM at the 6-month mark for the length of the service agreement.

Case Change

Stryker defibrillators, AEDs and LUCAS[®] products with this entitlement are allowed an agreed upon and documented number of case changes, upon failure, during the length of the service agreement.

Special Ops

This is a premium, fully customizable service based on your installed assets. This white-glove experience is designed to complete large scale PM projects in a short amount of time, typically within a week. Services include PM's, product unboxing and set up, power washing, all repair work as well as other customer or field initiatives.

Maintenance inspections

Stryker Medical products past their service life, with this entitlement, will receive one maintenance inspection annually for the duration of the service agreement. This does not include any repair work or any work that is part of the PM process. Additional inspections are available for purchase.

Battery service

Stryker Medical products with this entitlement can have the batteries replaced, as a one-for-one swap, upon failure, during the length of the service agreement.
