Re: Advisory to the Board of potential grant funding

Mr. Mayor and Board members,

We have had the opportunity to participate in the selection process of grant funding through Congressman Sherve's office. Several departments submitted projects for consideration in the process. We submitted our first water service line replacement project focusing on the south side of US 40 to Davis Road and from Hawk's Tail to Meridian Road. Through meetings and coordinated effort by city staff and engineering consultants we submitted our proposal in a short amount of time. We were informed that the service line project was selected for submission by the Congressman's office to be presented to the Congressional Appropriations Committee.

I would like to thank specifically the Water Utility Distribution Division for their outstanding effort to obtain almost 60 signatures of support from community members in the project area. The dedication to completing this task in poor weather is a demonstration of the professionalism and commitment to excellence of our Water Professionals. I would like to also thank State Representative Lawson, State Senator Crider, Mayor Titus, Clerk-Treasurer Elmore, Council President Jester, City Councilors Riley, Moore for their support of this project.

I am proud to say that the City of Greenfield is showing its dedication to our rate payers and citizens by working to keep additional costs as minimal as possible as we are facing a ten-year federal mandate to replace customer service lines.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Charles Gill".

Charles Gill
Manager
Water Utility

cc: Jane Webb, Utility Coordinator
Gregg Morelock, City Attorney
Lori Elmore, Clerk-Treasurer
